

Process for Internal Moves and External Waiting List

Process for Internal Moves

Existing seasonal campers put their name on a move list and when a site opens where they would like to be, they are notified. They have one day to make a decision on the offered site.

The reason for an internal move list is because external site people will accept a seasonal site that may not be 100% to their specifications to get into the Park.

We have no preference if campers want to move internally – we want to accommodate our clients.

Process for External Waiting List

A request must include the name, address, phone number, type of camping unit, and the campground name (or anywhere). Requests are put on the waiting list by year received. The person requesting the seasonal site must keep their contact information current.

When a seasonal site opens, the Park Office will call by date (year) received, campground preference and size of unit. If there is no response, a message is left and after three days the Park Office calls the next person on the list.

Name(s) are dropped from the external wait list by request or after two offers of applicable sites are rejected.
